

POOL AND SPA FENCE

POOL AND SPA FENCE

Features

- Strong durable non weld aluminium construction.
- Temper grade alloys specified by engineers. These alloys give the system optimum strength characteristics, corrosion resistance and have a high architectural grade surface finish.
- Great selection of quality powder coated and anodized finishes, to compliment or contrast with your property.
- Matching gates including approved childproof safety latches and self closing hinges.
- Fully concealed fittings for greater aesthetics and weather protection.
- 1200mm high as per swimming pool fencing act.
- 1st grade toughened safety glass.

Options

- Obscure or tinted toughened safety glass.
- Semi frameless glass balustrade.

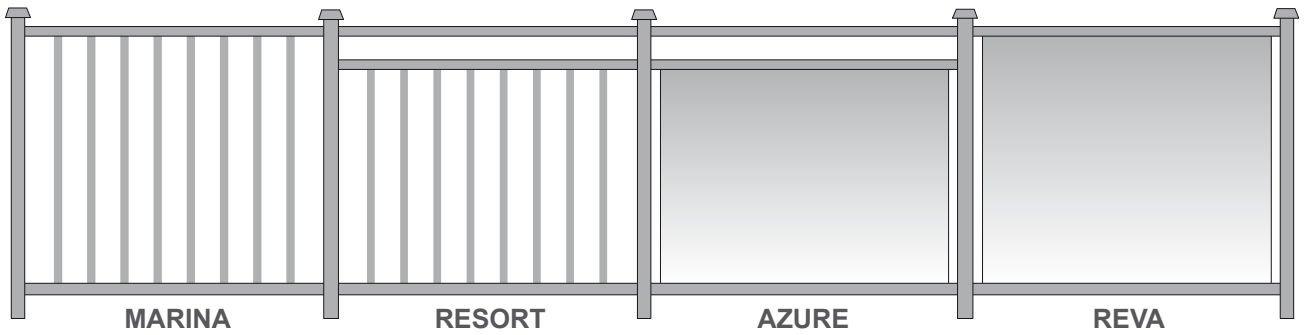

Quality New Zealand designed and produced. Provista Pool Fencing has been designed to compliment your property while ensuring safety for you and your family.

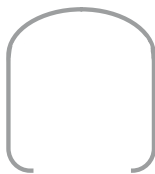

Safety and security combined with lasting good looks.

Framed Pool Fencing Styles (See our Semi-Frameless, Frameless and Euro Slat Details for other styles)

Rail Profile

Rounded top rail assists water run off.

Square rail used for intermediate rails and bottom rail.

Fixing Methods
