The choice is clear

4 reasons why you should choose a Provista Balustrade System

QUALITY

Provista Balustrade Systems have been engineer designed. This ensures that your new balustrade not only complies fully with building regulations it will also complement your property and lifestyle, featuring hidden attachments and seamless assemblies, architectural grade finish and a great range of quality powder coatings and anodizing options to choose from.

SERVICE

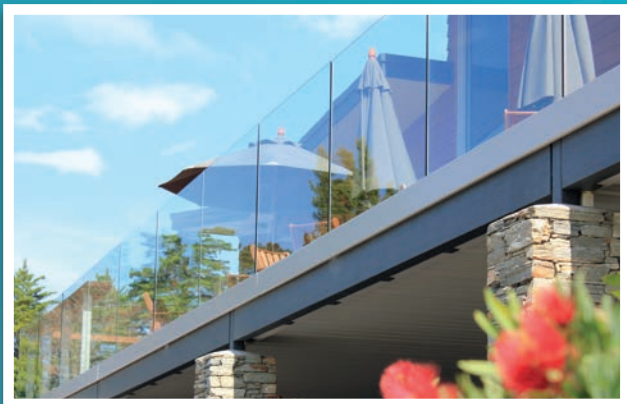

Provista Balustrade Systems don't just rely on providing a quality product at great prices for their customers. We pride ourselves on service and place just as much importance on prompt service and listening to our clients needs. Our industry knowledge and experience enables us to advise and give many helpful ideas and suggestions that can enhance our customers lifestyle needs. The most important part of our business is you, our satisfied customer.

CHOICE

With over 40 design and material options to choose from, this ensures that we can recommend and produce a custom-made solution to meet our customer's needs and enhance their property and lifestyle.

PRICE

Provista Balustrade Systems only fabricate balustrade and pool fencing solutions. Refined production systems results in less unproductive space required coupled with lower material costs and increased productivity. This has enabled us to save many thousands that are passed on to our clients. This ensures Provista remains the most competitive in the industry and that our clients receive the best quality at the best prices possible. Provista can save you many thousands on your new balustrade.

GLASS BALUSTRADE

The choice is clear

Sit back and enjoy the views with a glass balustrade. For unobstructed views, protection from wind and a great look that adds value to your property.

Features

- Choice of aluminium or stainless steel solutions, with or without glass.
- Framed, semi frameless or frameless glass, clear, tinted or obscure.
- Largest choice of handrail profile design options.
- Quality powder coatings and anodizing finishes.
- Great selection of colours for frames to complement or contrast with your property.
- Fully concealed fittings for greater aesthetics and protection from corrosion.
- Temper grade alloys specified by engineers. This alloy gives the system optimum strength characteristics, corrosion resistance and has a high architectural grade surface finish.
- All products are engineer designed and comply with AS/NZS 1170.1 Structural Design and Design Loadings, along with NZ4223 NZ Glazing Standards and AS1926.1 Swimming Pool Safety standards.

POOL & SPA

Safety and security combined with lasting good looks

There is no need to make your pool area look like a fortress to keep it safe. Provista supply Pool Fencing that has been designed to meet all safety regulations in all respects, while not compromising on the landscape of your home.

Features

- Choice of aluminium or stainless steel solutions, with or without glass.
- Framed, semi frameless or frameless glass, clear, tinted or obscure.
- Quality powder coatings and anodizing finishes.
- Great selection of colours for frames to complement or contrast with your surrounds.
- Matching gates including approved childproof safety latches and self-closing hinges to complement your design.
- Fully concealed fittings for greater aesthetics and protection from corrosion.
- Provista personnel are able to assist you to achieve many exciting variations to meet architectural and individual design requirements.

EURO SLAT FENCE

Quality privacy screening

Provista Euro Slat Fencing is a recent innovation in the Provista range of products. Euro Slat fencing has been developed due to demand for a high quality solution to conventional high maintenance, low security wooden trellis. Produced from high tensile aluminium extrusions, you can be assured of many years of maintenance-free, high security screening that will enhance your property and lifestyle. With Euro slat the possibilities are endless.

Features

- Low maintenance, Never needs painting.
- Non weld technology and fully concealed fittings for greater aesthetics and protection from both tampering and corrosion.
- Quality powder coatings and anodizing finishes
- We can custom design to match your lifestyle and property.
- High security and privacy screening
- Combine with other Provista balustrade or pool fencing products to further complement your property.
