

ALUMINUM BALUSTRADE

Features

- Strong durable non weld aluminium construction
- Temper grade alloys specified by engineers. These alloys give the system optimum strength characteristics, corrosion resistance and have a high architectural grade surface finish.
- Great selection of quality powder coated and anodized finishes, to compliment or contrast with your property.
- Fully concealed fittings for greater aesthetics and protection from corrosion.
- Choice of handrail profile design options.
- All products comply with NZ4203 AS1657 Structural design and design loadings & NZ4223 AS1926.1 Code of Compliance for glazing in buildings.

Options
